## LED Pedestrian Light, LED Pedestrian Signal, LED Pedestrian Sign Features:

An LED is a semiconductor device that uses solid-state electronics to produce colored light. When promoting energy-efficient LED Pedestrian Light in 1998, LEDs represented the only available light source that could achieve the level of energy savings targeted by the initiative. Now we have our LED Pedestrian Light in more than 80 countries.

LED Pedestrian Light uses LEDs consume 80-90 percent less energy and generally last 5-7 years, or longer, compared to just a year for a comparable incandescent light signal. LED Pedestrian Light also offers significant peak demand savings since they operate 24 hours a day, 365 days a year. With this tremendous opportunity for energy savings, BBE LED Energy-Efficient LED Pedestrian Light Initiative promoted LED replacements on a worldwide basis. Whether you need a completed LED Pedestrian Light or just a Retrofit LED Pedestrian Light, or even brand your name, just call us.

	Model	<a href="#"><u>LED Pedestrian Light, LED Pedestrian Signal (RX200-3-2)</u></a>
	Power Consumption	Red Man $\leq$ 5W, Green Man $\leq$ 6W
	Working Voltage	80-280VAC, 50/60Hz
	LED Q'ty	Red Man - 68 pcs, Green Man – 62 pcs
	Wavelength (nm)	Red Color - 625 $\pm$ 5, Green Color - 505 $\pm$ 2
	Certifications	CE, Chinese GB14887-2003 standards, IP65

	Model	<a href="#"><u>LED Pedestrian Light, LED Pedestrian Signal (RX200-3-D1A)</u></a>
	Power Consumption	Red Man $\leq$ 5W, Green Man $\leq$ 10W
	Working Voltage	80-280VAC, 50/60Hz
	LED Q'ty	Red Man - 68 pcs, Green Man – 314 pcs
	Wavelength (nm)	Red Color - 625 $\pm$ 5, Green Color - 505 $\pm$ 2
	Certifications	CE, Chinese GB14887-2003 standards, IP65

	Model	<a href="#"><u>LED Pedestrian Light, LED Pedestrian Signal (RX300-3-2)</u></a>
	Power Consumption	Red Man $\leq$ 7W, Green Man $\leq$ 8W
	Working Voltage	80-280VAC, 50/60Hz
	LED Q'ty	Red Man - 80 pcs, Green Man – 78 pcs
	Wavelength (nm)	Red Color - 625 $\pm$ 5, Green Color - 505 $\pm$ 2
	Certifications	CE, Chinese GB14887-2003 standards, IP65

	Model	<a href="#"><u>LED Pedestrian Light, LED Pedestrian Signal (RX300-3-D1A)</u></a>
	Power Consumption	Red Man $\leq$ 6W, Green Man $\leq$ 10W
	Working Voltage	80-280VAC, 50/60Hz
	LED Q'ty	Red Man - 75 pcs, Green Man – 314 pcs
	Wavelength (nm)	Red Color - 625 $\pm$ 5, Green Color - 505 $\pm$ 2
	Certifications	CE, Chinese GB14887-2003 standards, IP65

	Model	<a href="#"><u>LED Pedestrian Light, LED Pedestrian Signal (RX300-3-D2A)</u></a>
	Power Consumption	Red Man $\leq$ 6W, Green Man $\leq$ 10W, Red Counter $\leq$ 1W, Green Counter $\leq$ 2W
	Working Voltage	80-280VAC, 50/60Hz
	LED Q'ty	Red Man - 75 pcs, Green Man – 314 pcs, Red Counter – 84pcs, Green Counter - 84pcs
	Wavelength (nm)	Red Color - 625 $\pm$ 5, Green Color - 505 $\pm$ 2
	Certifications	CE, Chinese GB14887-2003 standards, IP65
